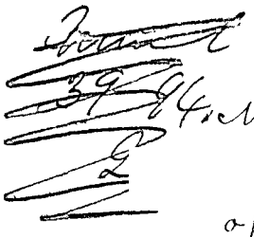
Read:-



Letter dated 20th June 11 No 985/875 from the Dy Com^r of the Chitaldrug District enclosing ^ a copy of Resolution No III of the Municipal Board of Chitaldrug dated 15th Idem requesting either that the interest on the loan for water supply project of the town may be excused or that the Govt ~~should~~ bear two thirds of its cost, the municipality paying only one third with 4 per cent interest.

^ for the approval of Govt

Order thereon

The Government are not prepared to sanction the recommendation of the Municipal Boards, who, ^ Constitute must ~~pay~~, ^ a moiety of the cost of the water supply project

^ ~~by each instalments~~ ^ if they wish to have water

of the town ~~extended~~ to cost
Rs ~~2,94,60~~ with interest ~~with interest~~ at
4 per cent per annum.

(2) Dr ^ Mysore, the Govt
has been very liberal
towards ~~the~~ Municipalities. ~~and~~
It is not the case in other
administrations and undue
advantage should not be
taken by the Mysore
Municipalities of the ~~liberality~~
liberality shewn by Govt.
Munificent contributions
now and then made by
Govt should be thankfully
acknowledged and the loans
repaid according to conditions

General Secy
To
The Dy Comr Chitaldrug
Comptroller

^ is noted that

The Govt observe that only
recently ~~Govt have refused~~
Chitaldrug ~~municipality~~ of Wee
the Municipality to remit
charges amounting to nearly
14000 Rs & that this sum
alone is sufficient to
discharge the loan of 16000
in the course of 12 to 15 years
The Govt have further by ~~given~~
the Govt share of
on Tobacco betel leaves &
~~Cocoanuts~~ & by remitting
an addition to the numbers
of octroiable articles enabled
the Board to realise a
revenue exceeding that
of 93-94 by 1600 Rs.
Govt have been exceptionally
liberal in their treatment
of Municipalities all over
the Province & they regret
that the Chitaldrug
Board instead of ending
with gratitude the liberal
Offer of 15000 Rs made
by Govt have chosen to
pass what Govt must
characterise as a very
unreasonable resolution

OFFICE NOTE.

SUBJECT.

Water Supply project for the town of Chitaldrug estimated to cost Rs 29460-- —

Hob clo $\frac{1479}{610}$ of 16: June 1894

The Sanitary Engineer engineered whether the Municipality of Chitaldrug would bear a moiety of the cost of the water project of the town and ~~xxxx~~ execute a bond for payment thereof as requested in Pro. dated 1st August 1894 clo $\frac{3916-36}{749-69}$, the other moiety being paid as a grant-in-aid from Provincial funds. The Municipal Board ~~xxxxxx~~ recommend the acceptance by Govt of either of the two following

alternative proposals for consideration of the straitened circumstances of the mty.

(1) That the municipality as a subsidy to pay ½ the cost of the water project, provided within 15 years mty. is exempted from payment of the 4 per cent interest chargeable on the loan under Para 5 of Govt Pro dated 1st August 1894 etc 3916-36 / 749-64 By this proposal the Provincial funds would lose about Rs 4600 on account of interest

(2) Should the payment of interest be insisted upon, the Board can afford to bear only a third of the cost of the water scheme. The

(2) The amount which the municipality will have to pay under the latter arrangement is about Rs 10,000 principal + 2,800 interest or 12,800 nearly, whereas under the former alternative, Rs 15000 has to be repaid to Provincial funds.

(3) The former proposal may, I beg to suggest be approved ~~The paper has~~ but proposals the attention H.E. the Dewan as it involves a sic Provincial p[ro]...

Put up Legislative Budget & Wheat relief bill when ~~of~~ Whole charge hitherto is it has been in recent years

VPM JR

(1) Opening balance on 1/7/95 = 1672
(2) Estimated receipts for 1895-96 = 7954
Total Rs 9626
(3) Estimated expenditure without any provision for repayment of loan } 7652
Estimated closing balance } 1974

The Budget under for 1895-96 is put up below JRJ 2/7

The Chittaldrug water-supply scheme is estimated to cost 30000 Rs Govt have promised to contribute 15000 and ask the Board to repay the balance of 15000 Rs with interest at 4 p cent. The Board plead they are too poor and request either that the interest may be exempted or that the Govt should bear two-thirds of the cost the Municipality paying 10000 Rs with interest at 4 p. cent. The Govt proposal is very liberal and the Board's request very unreasonable. In 1894 the Board was relieved of Rice charges averaging annually 1350 Rs. They were further permitted to levy octroi on a number of new articles & they benefit to the extent of 550 Rs a year by the alienation of Govt share of ~~taxes~~ octroi on Covenanted tobacco & betel leaves. Thus in the course of a year they have profited to the extent of 1900 Rs (permanent annual Revenue) at the expense of the Provincial Funds. Absolutely Considered

G

they were 3400 Rs better off
in 94-95 than in 1893-94 this will be a permanent improvement
The closing balance in favour
of the Municipality is nearly
2000 Rs Under these Cir-
Cumstances the Municipa.
lity has no right to grudge
an annual expenditure
say for 15 years, of a sum
of 1200 Rs or even 1600 Rs
for so important and
beneficial a purpose as
a good water-Supply.

JP.

Deputy Commissioner's office
Chitaldrug district
dated 20th June 95.

To

The General Secretary to the
Government of Mysore
Local and Municipal
Department.

Sir.

I have the honor to submit a copy of resolution No: III recorded at a meeting of the Chitaldrug Town Municipal Board held on the 15th instant, anent the payment of a moiety of the cost applied for by the Sanitary Engineer in his docket No: 1479/610 dated the 6th idem, a copy of which is also herein enclosed, on account of the Water supply scheme for the Town

Town of Chiltaldung, Costing
about Rs 29460-00 as esti=
=mated for by that office, —
and to state that in Considera=
tion of the project if accom=
=plished proving a great boon
to the inhabitants of the Town,
the Municipality is prepared
to repay half the Cost, but
owing to paucity of funds
as represented in this office
No: 917/810 dated 31st ultimo, the
Board plead their inability
to pay the interest thereon at
4 per cent per annum as laid
down in proceedings of Govern=
=ment No: 3916-36/749-69 dated 1st —
August 1894.

2. They therefore to solicit
that the Municipality be —
exempted from payments
of the interest referred to —
above, but if this Could not
be sanctioned, I recommend
the alternative proposal
which

which the Board make, be
sanctioned, viz, that the Govern=
=ment be pleased at least to
direct that 1/3 of the total
Cost be treated as loan to
be repaid with interest in
15 years.

I have the honor to be
Sir.
Your most obedient Servant.

No. 178.

Enclosure No. 1.

Proceedings of Government No. 7056-7 / L.7.195-94 dated 18th ultimo, calling for a statement showing the Amount which the Municipality can pay annually in re-payment of the Loan required for the water supply project of the Chitaldroog Town.

With reference to the above, I do the honor to state that the work in question has not been finally estimated for. The Sanitary Engineer, however, states in his docket No. 3041/1165 dated 9th October 1895 that the Cost of this work Amounts

to about Rs: 29460 as estimated by the Assistant Engineer Mr. Norris but that the scheme proposed by him requires a careful revision before submission to Govt: Thus it is not known what the actual amount of the estimate would be. Supposing, however, that the estimated cost would come up to Rs: 30,000 in round number the loan required would amount to Rs: 15000/- which the municipality is prepared to repay in 15 years with interest. A statement showing the Amounts payable annually towards the principal and the interest due thereon is herewith submitted for information.

Offg: Deputy Commissioner
Cuttalong district

General Observations — Sanitary Condition
&c

31.1.96

during Summer there are two main source of water supply for the town. The 1st is the Hutchanjee Sound (or Reservoir) near the Western fort Gate, which yields drinking water, and from which there are no Conduits or Channels The second, Thimmanayakana Kuttai Situa close to Chitaldroog — Jogimuttie Road at a Distance of about 2 miles from the town, is the lowest tank up between the hills, and supplies all the dis wells and Cisterns de within fort by means of Masonry Channels, which were Constructed in times gone by, are mostly leaky and out of order, at present, and allow Considerable wastage during Conduit. To remedy this State of things, it was Considered that it will be mere wastage of money, to repair the old and worn out Channels of two or three miles in length, and hence plans and Estimates were prepared; Contributes to be settled; and Rs 35000 sanctioned by Govern for the laying out of iron pipes and construction of water tight reservoirs and cisterns.

Besides the wastage in the old Channels & reservoirs, which existed for years past, water latterly wasted by being taken through Channels dug out in porous soils to supply parks, gardens &c. two thousand or three thousand feet of such Channels allow a good deal of soakage into the earth and thus waste, it seems to the undersigned will Continue on during the next Summer, as well

As the wastage is both within and without the Municipal limits, the undersigned is at a loss to point out the person or the persons or the body of persons who waste water like this.

~~Home~~

The Secretary Engr to Govt is of opinion that the work can be carried out by the Board - there is therefore no objection to the Deputy Commissioner's proposal to entrust the execution of the Water supply scheme to the local Public Officers after the project is sanctioned by Government.

Record this letter and return papers to Board.

Note that pending the preparation of

Deputy Commissioner's Office
Chitaldroog District
Dated 2nd April 1896.

To

The Secretary to the
Government of Mysore
Revenue and General Departments.

Sir,

With reference to your docket No. 9559 mis: 1320 dated 17th February last regarding the steps to be taken to conserve the supply of water now available in the tank at Chitaldroog, I have the honor to invite reference to Proceedings of the Municipal Board Chitaldroog held on the 27th ultimo a copy of which was sent with docket No. 773/484 dated 27th-28th ultimo.

2. It will be seen that every effort is being made to conserve the supply now available, but owing to the leaky condition of Channel by which water is led to the town and of the Sluice, the wastage cannot be effectively stopped, until the water supply scheme for which a project is being got up in the Sanitary Engineer's office is carried out.

3. The Sanitary Engineer in his letter to the Chief Engineer (copy forwarded to me with memo No 1169 dated 17th March 96) states that this proposal

will be ready by the 15th Instant. The Members of this Municipal Board of Chitaldroog are of opinion that if, after the project drawn up in the Sanitary Engineer's Office is sanctioned, the execution of the work is entrusted to the Public Works Department Officers on the spot the work will be carried out without delay. I beg that the Chief Engineer may be requested to give this matter his best consideration.

I am the honorable
Sir
Your most obedient Servant
[illegible]
Offg: Deputy Commissioner
Chitaldroog District

Read:-

Letter dated 2nd/11 April 1896 No. 769/497 from the Deputy Commissioner of the Chittaldroog Dist. drawing attention to Govt. Proc: dated 17th February 1896 No. 9559/mis 1320, that every effort is being made to conserve the water supply of the Chittaldroog Town but owing to the leaky condition of the channel by which water is led to the town and of the sluices, the meerkunge cannot be effectually stopped until the water supply project is carried out.
